Animal Handling Participants Risk Acknowledgment and Waiver

Name of Participant:

The Agricultural Societies Council of New South Wales and Glen Innes Show Society Incorporated (together **the Suppliers**) advise that participation, (including passive participation) in animal handling at an agricultural show contains elements of risk, both obvious and inherent. The handling of animals is a dangerous recreational activity as animals can act in a sudden and unpredictable way, especially when frightened or hurt.

1. By signing this waiver I acknowledge that:
 - 1.1 participation in animal handling is a recreational service for the purposes of section 139A of the **Australian Competition and Consumer Act (Cth) 2010**, and also a recreational activity for the purposes of section 5K of the **Civil Liability Act (NSW) 2002**;
 - 1.2 participation in animal handling is a hazardous activity and may result in injury, loss, damage or death to me;
 - 1.3 participation in animal handling requires certain skills and experience. I declare that I have sufficient skills and experience to be able to safely and properly participate in the events;
 - 1.4 animals can act in a sudden and unpredictable ways, especially if frightened or hurt, or if exposed to loud or unfamiliar noises;
 - 1.5 animal showing events will be held in close proximity to rides and large groups of people, and that there may be loud and unfamiliar noises which can frighten animals;
 - 1.6 if the event is held outdoors, there are risks to me as a result of weather conditions, including either extreme hot or cold weather, rain or wind;
 - 1.7 insects or other animals may cause animals to become frightened and act in an unpredictable way;
 - 1.8 there is inherent in events involving the handling of animals the risk of suffering injury including injuries caused by animals; and
 - 1.9 I use the facilities of Glen Innes Showground and Glen Innes Show Society Inc. entirely at my own risk, as I find them and with the prior acceptance of the risk of possible danger to me.
2. If I suffer injury, loss or damage (**Loss**) while participating in an animal handling event, I will not hold the Suppliers, their employees or agents legally responsible for any Loss I suffer. I will not sue the Suppliers, their employees or agents for any claims, costs, damages or liability. I agree to release the Suppliers and their employees from legal responsibility for the services I have been provided and/or activity I have participated in.
3. I acknowledge and agree that my participation in the event and associated activities is dangerous and may have inherent risks as a result of which personal injury (and sometimes death) may occur. I acknowledge that the event and associated activities carry with them a significant risk of physical harm. I accept and assume all such risks of personal injury or death in anyway whatsoever arising from these activities and hereby waive my individual right to sue the Suppliers for all claims I or my representatives may have for such personal injury or death against the Suppliers in any way whatsoever arising from or in connection with these activities.
4. At the time of participating in the event, I have not been to any degree under the influence of alcohol or illicit drugs.
5. I will not consume any alcohol or illicit drugs while participating in the Event and agree that such use may result in me being excluded from the Event or other events with no entitlement to any refund of money paid for entry to the Suppliers.
6. I agree to be bound by the rules and guidelines of the Agricultural Societies Council of New South Wales Incorporated as varied from time to time.

Where the participant is over 18 years of age:

I agree that I have read and understood this waiver prior to signing it and agree that this waiver will be binding on my heirs, next of kin, executors and administrators.

I acknowledge that the Suppliers have permitted me to participate in the activity, the subject of this document, in reliance upon the matters acknowledged by me and the representations I have made herein.

I agree that this waiver shall be governed in all respects by, and interpreted in accordance with, the laws of New South Wales.

Signature : Date:

Where the participant is under 18 years of age (to be completed by a parent or guardian):

I _____, being a parent or legal guardian of the above named participant hereby consent to my child participating in the following animal handling event: Glen Innes Show Society Inc Campdraft and/or Glen Innes

Show Society Inc Blue Jeans Sports Day

I confirm I have read and understood and explained to the participant, this waiver prior to signing it and agree that the agreement will be binding on my (and their) heirs, next of kin, executors and administrators.

I acknowledge that the Suppliers have permitted me to participate in the activity the subject of this document in reliance upon the matters acknowledged by me and me real guardian and the representations that I have made together with my legal guardian herein.

I agree that this waiver shall be governed in all respects by and interpreted in accordance with the laws of New South Wales.

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enzootic Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/endemic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

QUESTIONS 3 & 4: BOVINE VIRAL DIARRHOEA VIRUS (PESTIVIRUS) TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Dairy cattle may be tested through bulk milk testing. Contact your veterinarian for assistance. Producers who don't know the answer to these questions should tick the 'N' box.

QUESTION 5: JOHNE'S DISEASE TESTING

Note: JD is a notifiable disease, so it is important to answer these questions.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Herd Environmental Culture (HEC) Check Test (for dairy cattle) – a test of a representative sample of faecal material from the yard (see JD in *Cattle Definitions & Guidelines* for details). Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools.

QUESTIONS 6 & 7: JOHNE'S DISEASE

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score** (J-BAS) is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

The **Johne's Disease Dairy Score** (JDDS) is a voluntary tool for JD risk profiling in dairy cattle. Information is available at www.dairyaustralia.com.au/bjd

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.
